2. Read the following text and choose the right sentence:

'AC/DC are an Australian rock band formed in Sydney in 1973 by Scottish-born brothers Malcolm and Angus Young. They released their first album, 1975's High Voltage. Membership stabilised around the Young brothers, singer Bon Scott, drummer Phil Rudd, and bassist Cliff Williams, who has appeared on every AC/DC album since 1978's Powerage. In February 1980, Scott died of acute alcohol poisoning after a night of heavy drinking. The group considered disbanding but elected to stay together, bringing in longtime Geordie vocalist Brian Johnson as Scott's replacement. Later that year, the band released their first album with Johnson, Back in Black, which was dedicated to Scott's memory. The album launched AC/DC to new heights of success and became one of the best selling albums of all time'.

22. Read the text and choose the right sentence:

'When you first try an authentic British scone, you might be tempted to think of it as a biscuit. You can't deny that the two are similar. The basic ingredients for biscuits and scones really are the same: flour, leavening, a little salt, some fat, milk, and maybe a little sugar. The process too is similar: cut the fat into the dry ingredients, add the liquid, roll, and bake. The difference comes down to a subtly in texture and how they are served. British scones are more dense, slightly drier, and more crumbly than biscuits. They typically contain much less butter than biscuits as well. While biscuits most likely originated from the British scone, they have been transformed and are now the scone's buttery cousin. Because of the extra butter, biscuits should be light and fluffy with tender layers. While scones are spread with jam and clotted cream (which you can make yourself as oven clotted cream or as slow cooker clotted cream), biscuits more commonly find themselves in savory applications, like with sausage gravy or an egg and bacon'.

- a) Scones are made with plenty of sugar.
- b) The ingredients for both biscuits and scones are mainly different.
- c) Biscuits were made after the British scone.
- d) Scones are lighter than biscuits.
